

HVAC & REFRIGERATION MECHANIC

Kings Dominion has an opening in its Park Maintenance Division for a HVAC & Refrigeration Mechanic. This full time position will report to the HVAC Supervisor.

JOB SUMMARY:

Installs, monitors, constructs, maintains and repairs heating, ventilation, chiller systems, air conditioning and refrigeration (HVAC/R) systems throughout the Park. Maintains and repairs all food and beverage cooking equipment throughout the Park. Responds to service calls. Performs related work as required.

QUALIFICATIONS:

- Must maintain required control system operations certifications.
- Ability to pass a mandatory (or random) drug test and background check which may include, but is not limited to credit, criminal, DMV, previous employment, education and personal references, per Company policy, unless prohibited by federal, state, or provincial law.
- Ability to work nights, weekends and holiday periods to meet business needs.
- Have a valid Driver's License

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Operates vacuum pump, recovery unit, forklift, drills, JLG man lift, etc. Uses meters, gauges, shop tools, electrician tools, diagnostic equipment, volt meters, analyzers, etc.
- Maintains park's chiller plant, boiler systems, food service equipment, etc.
- Maintains and operates Fire Effects systems. Conduct daily safety operational checks and checklists, maintain wage logs, inspect burner assemblies and gas valves. Conducts minor repairs as needed, coordinate with rides maintenance to start and stop effects; burn off effects adhering to manufacturer and park standards.
- Conducts winterization and startup. Flush outdoor drink systems, restarts all equipment and check buildings for problems with equipment related systems before park opening. Flush, drain, and add necessary chemicals, etc.

- Troubleshoots and services problems and equipment failures. Responds to service calls for refrigeration units such as walk-in freezers, coolers, ice machines, soft service machines, prep coolers, display cases, etc.
- Installs, monitors, maintains, repairs and retrofits HVAC&R equipment and systems throughout the Park. Performs preventative maintenance for refrigeration units and HVAC&R systems: changes belts, bearings, greasing, etc.
- Troubleshoots and makes repairs to HVAC&R systems such as direct expansion units, chilled water units, 1-25 tons, electrical, gas units and exhaust/hood systems.
- Provides guest service according to Cedar Fair standards when serving the guest or working with subordinates, including initiating guest interactions, answering questions and giving directions.
- Maintains cleanliness and safety in assigned work area and performs all duties in compliance with Cedar Fair Safety guidelines and requirements and reports all unsafe or unusual conditions to supervision.
- Meets scheduling availability requirements, including nights, weekends, and holiday periods to meet business needs.
- Meets Cedar Fair's attendance requirements as outlined in Cedar Fair's attendance policies.
- Adhere to and enforce all Cedar Fair policies and procedures, including safety, attendance and EEO policies, and demonstrate a commitment to guest service in all aspects of employment.
- Other duties may be assigned.
